

# MARCH MONTHLY TALK

20th March at 2.30

Alton Community Centre

£2 on door to include tea and biscuits

## **Saving The Stone-curlew**

Keith Betton has been involved in monitoring these wonderful birds in Hampshire for over 15 years. He will explain how they live and how they can often run into trouble if they choose to nest on farms that are not aware of their presence. Keith and his colleagues work closely with the local farmers to maximise the birds' chances and report into the RSPB Wessex Stone-curlew Project.
